

Figure S1

Shows percent usable frames by task as a function of order of presentation among 6-month-olds (a) and 12-month-olds (b). Red-dashed line shows the cut point for inclusion in analysis. Note: *p*-values were generated from Wilcoxon rank sum tests.

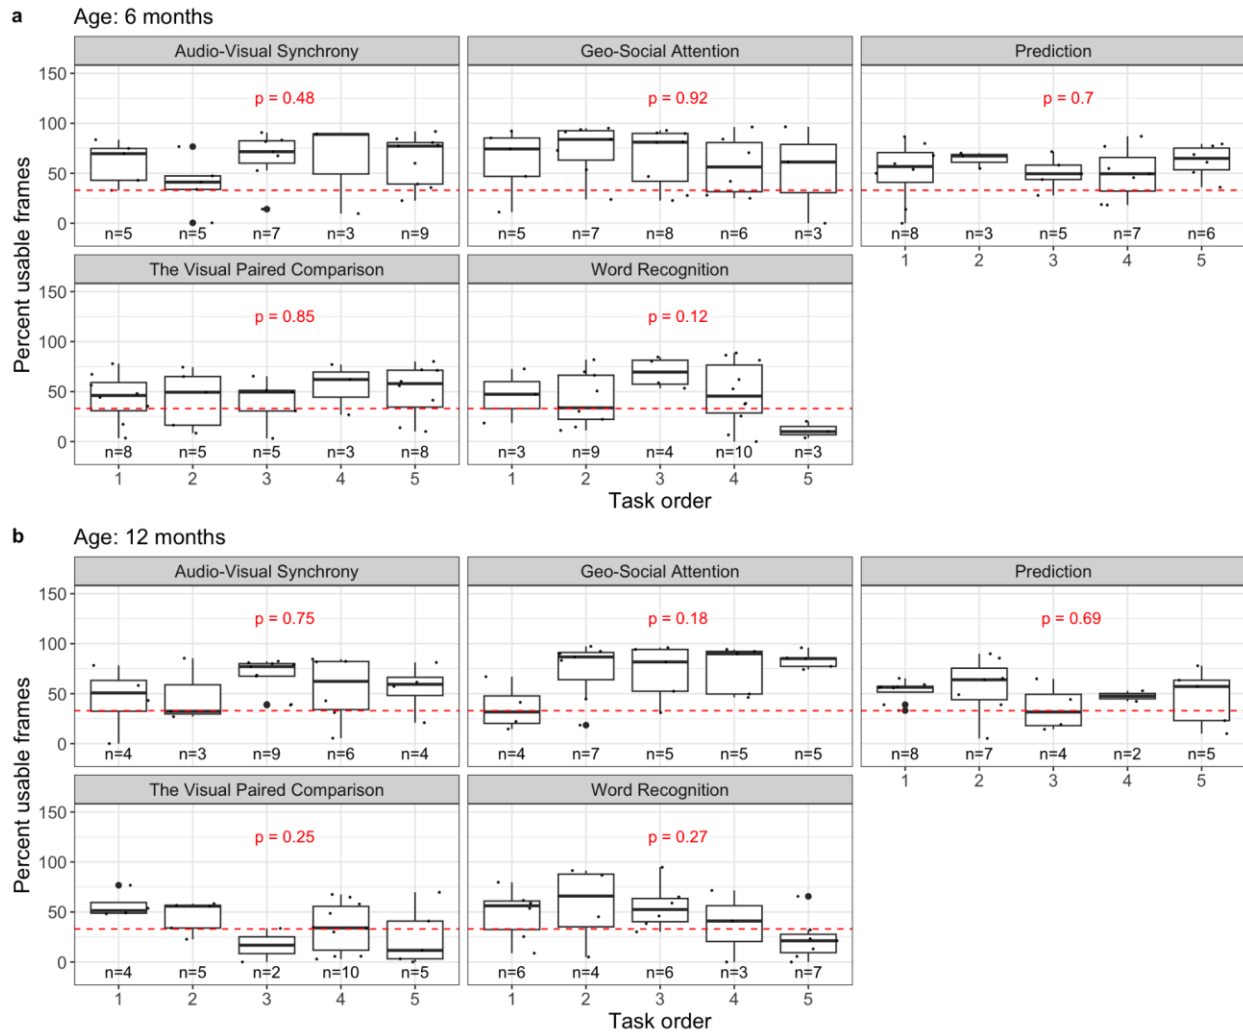

Figure S2

Percent usable frames by task as a function of order of presentation among 6-month-olds (a) and 12-month-olds (b). Red-dashed line shows the cut point for inclusion in analysis. Note: p -values were generated from Wilcoxon rank sum tests.
